

Last day of regular dining operations for 2019 Season: October 13th

written by John Mueller | October 1, 2019

October is our last month we will be open for the general public during the 2019 season. The summer / fall season is winding down with the color season. As such, we will be winding down our food and beverage operations this month.

The last day for dining operations (dining room, bar, and Little Cabin Cafe) during the 2019 summer season will be **Sunday, October 13th**.

Between October 14th and 27th, we will have select dining operations open to the general public for special events only (e.g. October 15th – Tunes-day, October 26th – Cyclocross Taco Bar). See our [calendar of events](#) for those special events.

Lodging in the cabins and the hotel will be open to the general public until October 27th. After October 27th, the resort will close to the general public for the winter season. Private parties will be able to stay in cabins this winter, as we will be keeping 6 cabins open for the winter season.
