

What is it like to groom the winter trails at the Lodge?

written by admin | January 23, 2022

We are currently in our 2nd year of year-round operations, which includes the winter season that nature creates to give us the winter wonderland and playground in the Keweenaw. When snow is on the ground, our winter [outdoor activities](#) at the Keweenaw Mountain Lodge allow us to provide guests more than [10km of cross-country ski trails](#) and more than [2.2 miles of dedicated snowshoe trails](#). To provide a wonderful experience for our guests, we groom these trails, and you can see the [current winter trail conditions](#) at any time on our website.

If you ever wondered what it was like to groom the trails at the Lodge, pictures can do the best talking. Below is a slide show of pictures from this season of our grooming activities on the Lodge winter trails.
