[Elevating the Keweenaw]

Adding another dimension to the Keweenaw,
and living in and breathing the natural world.
Being nature-friendly is a fun.joyous.adventuresome
responsibility.

[Getting people closer to nature; a breath of fresh air]

We are a four-season historic resort at the top of the Keweenaw, focused on outdoor activities, rustic worldly food, and education. We work to marry history with the future to get to a vibrant and progressive present, and limit the amount of people that are on property in order to improve the guest experience.

[Keweenaw – pronounced ‘key-wah-naw’]

The Keweenaw Mountain Lodge was built under the Works Progress Administration (WPA) in 1934, when FDR was the president of the United States and the country was going through the great depression. As of 1980, the Lodge is on the [National Register of Historic Places](#), and as of 2018, is privately-owned. [Learn more about the [history](#) of the Lodge | [Historical Timeline](#)]

We cater to individuals that want to [get closer to nature](#) being that we are located in a wilderness environment [see [why we exist](#)]. Individuals that enjoy their experiences at the Lodge are individuals that tend to value the history of the lodge and want to see it move forward, outdoor enthusiasts, and culinary enthusiasts. These individuals also understand the [Lodge team](#)

[core values](#), and why the Lodge team works to lead by these values. This increases the probability that Lodge guests and Lodge team members will have a delightful experience when [marrying history with the future](#) to get to a vibrant and progressive present.
