

Employee Housing

written by John Mueller | February 17, 2020

Employees that work at the Lodge have the option to stay on property. Starting in 2020, we started using the 6-room hotel for housing. Each room will accommodate two people (i.e. double occupancy). There are two queen-size beds and a bathroom in each room. Each room has a mini-fridge. Microwave and stove top are accessible in the common room, as is the dishwashing sink, clothes washer, and clothes dryer.

The cost to stay in employee housing: **\$100/week/person.**

Availability is first-come, first-serve, and employees coming from outside the Keweenaw and employees that are working full-time (40 hours/week) have the priority.

Future employee housing: One of the projects that is being worked on at the Lodge is a new employee housing development. [Learn more.](#)
