

Weekly Outdoor Activity

written by John Mueller | August 1, 2021

Full time employees have the option to partake in the weekly outdoor activity (WOA) program. The WOA program is designed to encourage employees to learn about the outdoor services that the Lodge offers, to enjoy the Lodge facilities, and to promote a healthy lifestyle. This entitles the employees to be paid to play the golf course, go for a mountain bike ride or take a hike for two (2) hours a week. This should be included within your 40 hour work week and overtime should not be used, and can only be used once a week (a week starts on Saturdays).
