About the Workshop

The purpose of this workshop is to educate people on how to capture the beauty of the northern lights and the night sky on camera. Topics being covered include equipment needed, camera settings, and the best locations for viewing. These workshops will start out with a brief PowerPoint presentation (in the conference room), and then we will go outside for hands-on experience – taking pictures of the night time sky (hopefully northern lights) around the Lodge property (weather depending). With the information garnered from the workshop, it will make stargazing more enjoyable.

Please bring your camera, a tripod (if you have one), warm clothing, and a great attitude.

About the Instructor: Nate Bett

Nathan Bett is a photographer and educator in Hancock Michigan. Although originally from Marquette, Michigan, Nathan recently relocated to Hancock from New York City, where he taught at the City University Of New York, and represented a major camera manufacturer as a technical specialist in photography. He now spends his time indulging in the over abundance of natural beauty in his native UP and spending excesses of time outdoors with his family. Nathan maintains a passion for photography and the outdoors that he delights in sharing with students. His work can be viewed at nathanbett.com and [@natebett](https://www.instagram.com/natebett) and [@artmonstermedia](https://www.instagram.com/artmonstermedia) on Instagram.
