Water Quality Management  
Outreach and Education

**Site Visit Completed:** **No**

### **Environmental Case Study – (Achieved)**

We are always excited to learn how clubs come up with unique and innovative ways to reduce resources, all while providing an enhanced experience for their guests. We are so pleased to learn that Keweenaw Mountain Lodge pursued Dark Sky Park Certification, which has led to a significant reduction in electricity usage, all while providing better migratory conditions for avian species. Well done and keep up the great work!
