Hey John,

TGS had a question regarding your order, see below.

**Our records indicate Keweenaw Mountain Lodge has already previously purchased (27pcs) RWL2-S-30-30-U-D-P7P-3-DB fixtures and PO2005896-00 is an add on commissioning services . Please confirm and advised if (28pcs 7 pin twist lock is needed)**

**Please note that this order does require a 50% deposit to move forward with production. Please see the proforma invoice attached. If paying by credit card we do requires a 3% credit card fee. If you would like to pay by check please provide a copy of the check prior to placing in the mail.**

We have 28. Bay Electric purchased the, and installed them. The first one was a test for a couple of months, and then the remaining 27 units were purchased.

We have an account with Standard Electric for 30 day terms. They invoiced us yesterday for 14 of them, and said that 14 were back ordered.

So I continue to be confused who is doing what.

- JM

For the 7 pin twist lock, what is that? Bay Electric installed the fixtures and purchased them. Do you see that in the records for the details of the specs? - JM

Hi John,

So sorry about the back and forth with all of this.

So it looks like back in 2020, there was a PO with the same job name, placed for the same exact order, are you looking at replacing these existing ones?

Thanks!

**Jaiden Garber**

Jaiden, this order is for adding wi-fi modules to our existing lights. The order is placed through Standard Electric this time. The order for the TGS cobrahead light fixtures was placed with Bay Electric in 2020/2021.

We went through all the details with Steve earlier this year, and had everything locked down with what specifically had to be ordered. So I am confused why this is being brought up again. Did something get missed?

Good morning John,

What is your phone number? Truly Green Solutions needs it as I had to provide contact information per the PO 😊
